

thin mag[®]

The Inexpensive
Powerful Magnetic Sheet

Introducing ThinMag[®]— New From FlexMag Industries.

Now you can save money on magnetic sheet without sacrificing quality, power or printability. The solution is ThinMag, a brand new product from Flexmag Industries, the world's leader in flexible magnetics. ThinMag is incredibly thin, with surprisingly impressive holding power.

Introducing ThinMag's Silky Smooth Printing Surface.

ThinMag's amazingly smooth printing surface also matches—even surpasses—the printing surfaces of any magnetic sheeting of any thickness you can find anywhere. Both you and your customers will be thrilled with the clean, crisp results you get with ThinMag.

Introducing Low-Cost Magnetic Sheet With Quality Characteristics.

ThinMag also gives you excellent stability and durability. It comes in a wide array of colors. It is available in cut widths from 1/2" to 24" wide, and in any length you need. It is easily diecut. With ThinMag you get FlexMag's quality and service, and you save money at the same time. By using thinner, lighter ThinMag flexible magnetic sheet you'll hold those margins that are so important to your business, and you'll deliver high quality results for your customer.
